

MVVR-5 Symposium Abstract Guidelines

Abstract Formatting

1. The abstract should be typed in Times New Roman font size 12 with single line spacing.
2. Include a title (not exceeding 100 characters, spacing inclusive).
3. Include names and affiliations of co-authors.
4. Underline the name (also in bold) of the presenting author.
5. Abstract text should not exceed 300 words.

Abstract Content/Subheadings

1. **Background:** Provide a brief introduction to the problem/research question addressed.
2. **Objective(s):** Provide the measurable goals and objectives of the research.
3. **Methods:** Provide details of the study design, samples and analytical procedures.
4. **Results:** Outline the key findings of the study. Include numbers and statistics.
5. **Conclusion(s):** Provide an interpretation of your results and how they fit to the bigger picture.

MVVR-5 Abstract Policy

When you submit an abstract to MVVR-5 committee, the abstract authors are bound by the following policy;

“That the abstract will be included into the abstracts book that will be shared with all the symposium participants and stakeholders including sponsors.”

“That the abstract along others presented during the symposium may be published as part of the proceedings of the symposium in a journal that the committee will identify. However, this does not stop the authors from in future publishing elsewhere the work they have presented in the symposium and that will not require the permission of MVVR-5.”

Abstract Content

The presented abstract must have reasonably adequate new information that has not been previously presented in previous MVVR meetings and the content must not be already published in a scientific journal as a full article.

Abstract Submission

After agreeing on the abstract content with your co-authors please send it to: Mvvr@kemri-wellcome.org

If you any questions regarding MVVR-5 abstracts please contact:
